Bouquet

# Bouquets

## SOMETHING BLUE

Capturing the Blue Theme with the Bride in focus. We aim to embrace a blue theme primarily centred around the bride. By incorporating a blend of flowers we know are in season that maintain a cohesive appearance, we will include blue hydrangeas, white chrysanthemum blooms, and white roses as key elements of the arrangement.

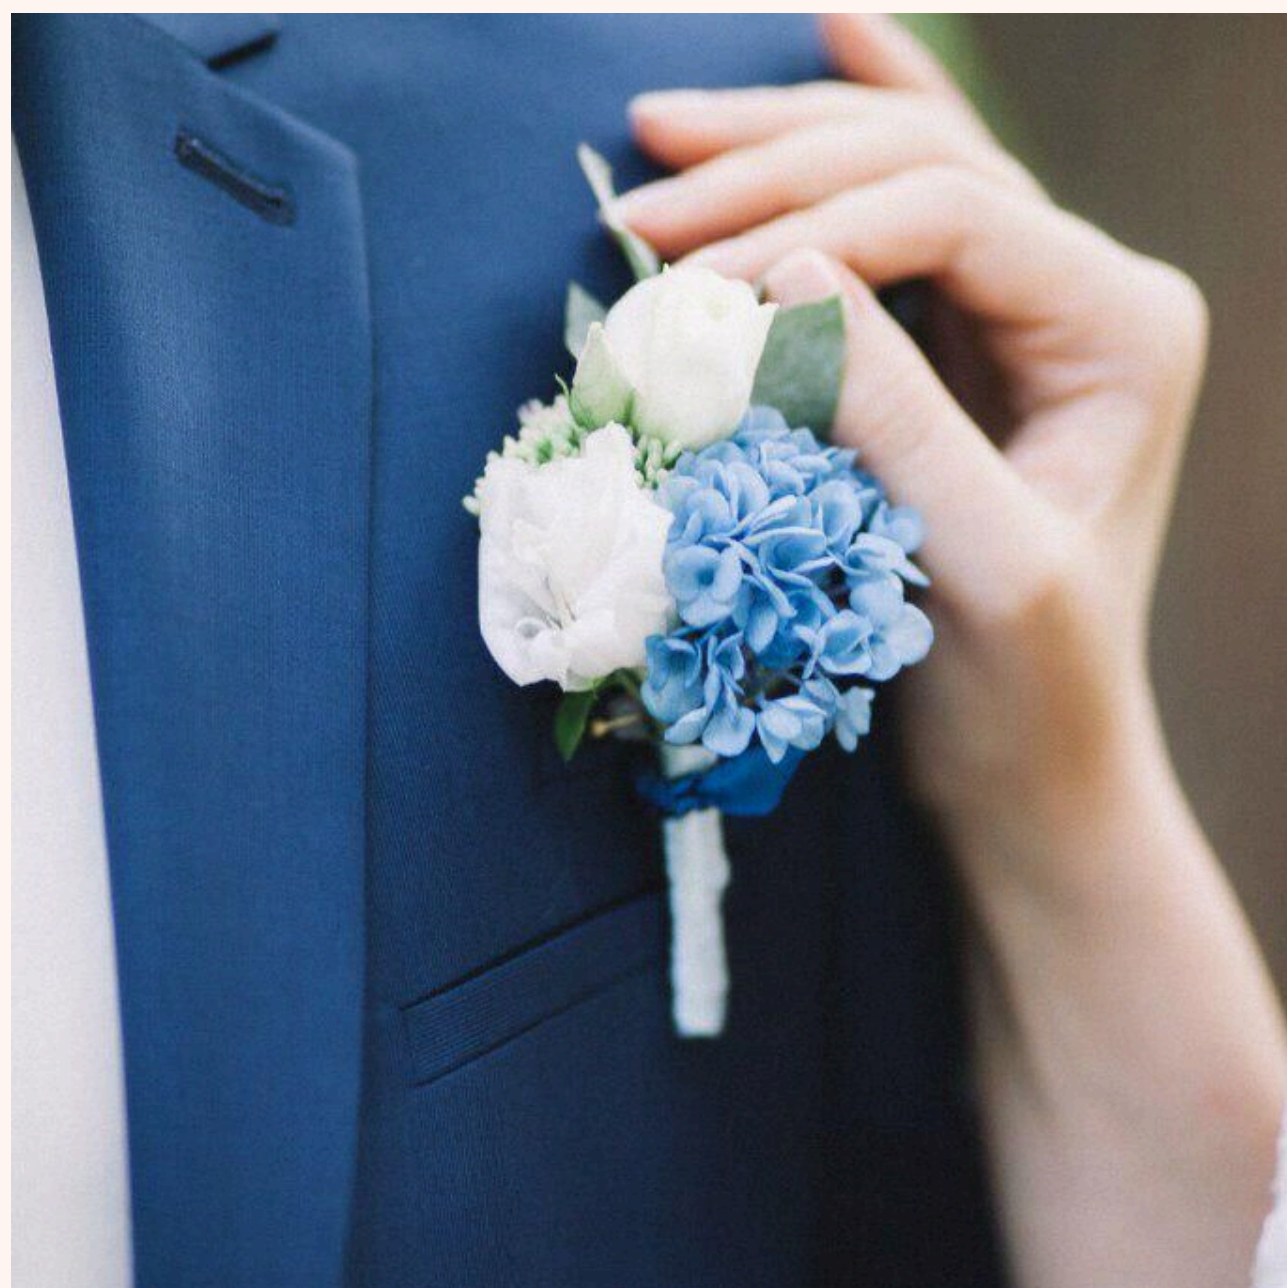

The Bridesmaid's bouquet will be a clean white with some green elements coming from the Lisianthus. We'll add some larger white blooms - White chrysanthemum blooms, and white roses to bring more of the white tones out over the green.

Brides Size,  
Approx.  
£120 for our  
couple.

Bridesmaid Size, Approx.  
£60 each for our couple.

## FLOWER CHOICES

Hydrangea Lollipop

Thistle (Eryngium Blue  
Dynamite)

Eucalyptus  
Populus

\*variety availability depends on the growing season.

# Ceremony

## CLEAN GIRL VIBES

Classic clean vibes to create a minimalist, timeless look. As our couple is on a specific budget, we'll use a variety of florals rather than premium roses everywhere.

We will aim for pops of blue but not to overdo it.

## AISLE

Hurricane Lanterns with floating candles and reflexed roses/other white flowers. Really cute, simple, and elegant aesthetic ensuring the pops of colour remain at the top of the aisle. Think a combination of the images you see here.

# Ceremony

## BLOOMING BEAUTIFUL PLINTHS

The top of the aisle we'll place a plinth formation to frame the space.

Focus on white with the blue from blue hydrangeas and Eryngium Blue Dynamite Thistles.

Although we are taking inspiration from these styles, we want to create a 'Cloud 9' vibe and will be using gypsophila to create a cloud-like structure.

Our Plinths are gold frames.

# Ceremony Aisle

## SIGNING TABLE

The signing table will be clean and simple. Bud vases with reflexed roses and white flowers.

## A POP OF BLUE

We'll use our gold candle holders for a pop of colour/a different texture, which is in keeping with the gold plinths.

We'll use some baby blue candles to bring the blue back in. These will be placed somewhere in the space.

# Wedding Breakfast

## TOP TABLE

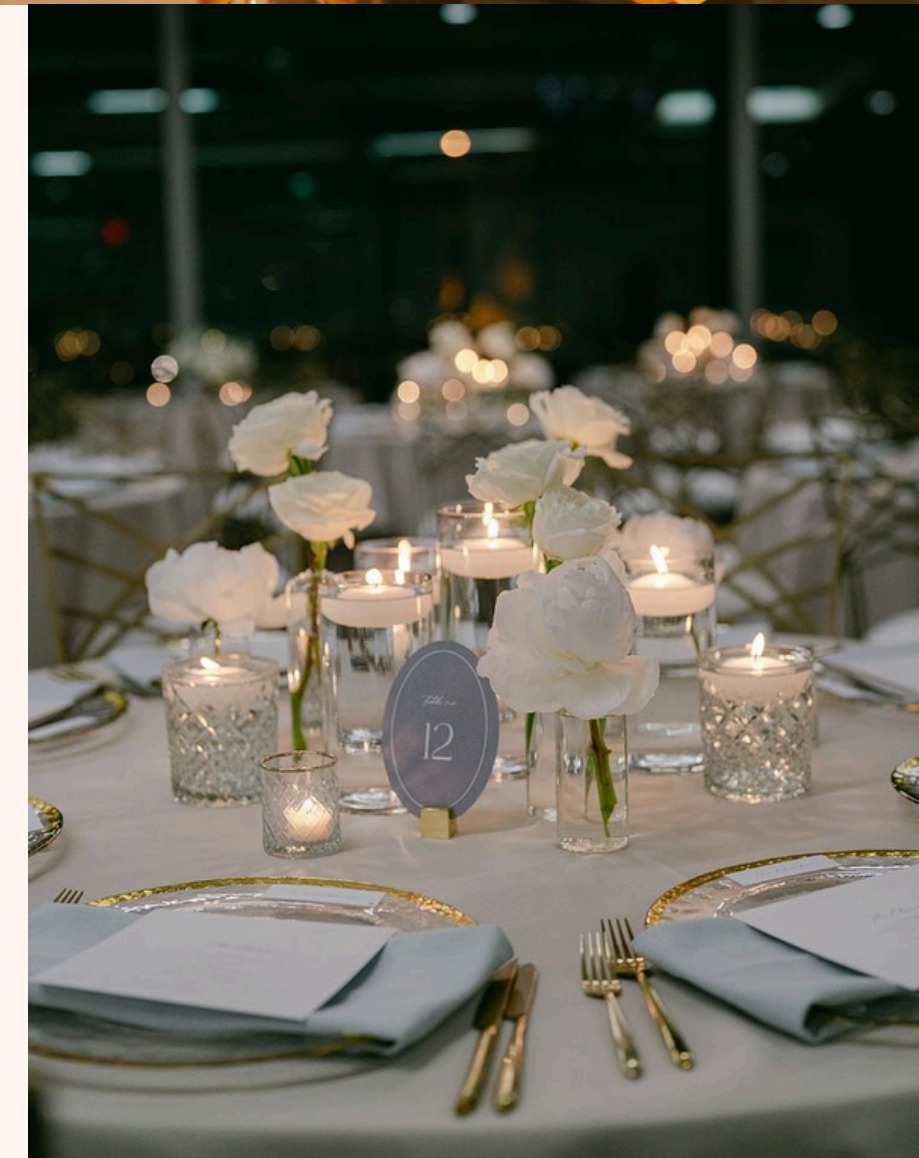

Sweetheart Table using the bridal bouquet as its focal point. This will bring the blue tones into the design whilst reusing elements already paid for. We'll use a clear glass vase to hold the flowers.

We'll bring over the bud vases to accent this focal point. We'll also place some hurricane vases by the base.

## ONE LONG TABLE

We'll set up one long table for guests. An intimate setting reflecting the number of guests invited to many modern weddings.

The table design will focus on elegance. We'll reuse elements from the ceremony setup and create a beautiful setup throughout the centre of the whole table.

# Wedding Breakfast

## TABLE ELEMENTS

The table design will draw on 'fluffy' elements to bring in more of the 'Cloud 9' vibe whilst also drawing on the same classic clean elements discussed, to ensure this palette is as timeless as possible.

## CHESSECLOTH FABRICS

We'll use sky blue table runners, bringing in the key colour of blue without overdoing it. We'll also use white cream cheesecloth runners.

## CANDLES

We'll be using floating candles for an even more airy feel and bring in the sky blue taper candles with gold bases for the tablescape. This will create a beautiful mix of tones, textures, and a metallic element to create an elegant event styling design.

# Wedding Breakfast

## PLINTHS

We'll be reusing the ceremony plinths at the back of the Wedding Breakfast setup. This will be behind the sweetheart table to create a focal point within the room's event design.

# Little Extras

## AUDIO GUESTBOOK

We'll set up a guest book station with our audio guestbook.

This is a great element of guest interaction that couples love to use.

It's clean white housing, it will go well with the theme.
